DNA-binding transcription factor activity	RNA polymerase II cis–regulatory RNA polymerase II cis–regulatory RNA polymerase II cis–regulatory region sequence–specific DNA binding region sequence–specific DNA binding	protein binding
DNA-binding transcription factor activity DNA-binding transcription repressor activity, RNA polymerase II-specific		
DNA-binding transcription activator activity, RNA polymerase II-specific	unfolded protein bindin <mark>unfolded protein binding</mark> otein domain specific binding	ubiquitin-like protein transferase activity
