nucleoplasm	cytosol		mitochondrion			mitochondrial inner membrane			proteasome complex		ic step eosome
								histone acetyltransferase complex		ubiquitin ligase complex	
								proteasome com		omplex	
	nucleoplasm membrane		cellular ne-bounded anelle cytoplasmic stress granule		mitochondr ribosome		tosolic osome	spliceosomal complex	i noioenzyme i		ediator omplex
								core	beta-catenin		CR4-NOT
nucleus						endop reticu		mediator complex	destruction		mplex
	cytosolic small ribosomal subunit	mitochondrial matri	drial matrix	Golgi membrane	spindle	secretory		ribonucleoprotein complex	protein phosphatase type 2A complex	euchromatin	ranscription repressor complex
	ribosome	nuclear	r speck	chromosome	polysomal ribosome	phagophore assembly site	intermediate filament cytoskeleton	intracellular anatomical structure		in-containing complex	
					ficolin-1-rich granule lumen		naptic			ing body	membrane
